Risk stratification	"This wouldn't have been detected before"	"microarray cannot detect balanced events"	Genotype–phenotype correlation	Chromosome 2
"Probably more complexity we can't see"	Chromosome 15	Chromosome 3	Chromosome 6	Pathogenic
Chromosome 13	Chromosome 9	FREE	Translocation	"After multiple attempts..."
Chromosome Y	Deletion	Deep neural networks / AI / Machine learning	Automated metaphase scanning	Chromosome 7
Chromothripsis	Placental mosaicism	Y chromosome material	Chromosome 5	Acute promyelocytic leukemia (APL)

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
