|                                   |                              |  |                                      |                              |
|-----------------------------------|------------------------------|--|--------------------------------------|------------------------------|
| Chromosome 16                     | "Higher resolution platform" | "We confirmed it with FISH"                | Chromosome X                         | Duplication                  |
| Chromosome 5                      | Chromosome 20                | Derivative chromosome                      | Chromosome 12                        | Diagnostic yield             |
| Inversion                         | Placental mosaicism          | FREE                                       | Cell-free DNA (cfDNA)                | "NGS still doesn't see this" |
| "It's more complex than it looks" | Chromosome 11                | "microarray cannot detect balanced events" | Pathogenic                           | Risk stratification          |
| Aneuploidy                        | Optical genome mapping (OGM) | Chromosome 7                               | "This is why we still do karyotypes" | "This is a busy slide"       |

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
