Genotype–phenotype correlation	“Probably more complexity we can't see”	Chromosome 4	Chromosome 22	Chromosome 20
Translocation	“This is why we still do karyotypes”	Chromosomal instability	“Higher resolution platform”	Complex rearrangement
“We were surprised by this finding”	B-cell ALL (B-ALL)	FREE	Chromosome 13	Chromosome 9
Acute promyelocytic leukemia (APL)	Chromosome Y	Copy number variation (CNV)	Derivative chromosome	Deletion
NIPS / NIPT	“Higher resolution method”	SNP microarray	Optical genome mapping (OGM)	PML::RARA

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
