| | | | | |
|---|--|---------------------------------|--------------------------|------------------------------|
| Chromosome 1 | Whole genome sequencing (WGS) | Chorionic villus sampling (CVS) | "p-arm" | "We confirmed it with FISH" |
| Pathogenic | SNP microarray | "Higher resolution method" | Chromosome 22 | Automated metaphase scanning |
| "This wouldn't have been detected before" | Structural variant (SV) | FREE | Chromosome 6 | "Higher resolution platform" |
| Chromosome 5 | "microarray cannot detect balanced events" | "After multiple attempts..." | Uniparental disomy (UPD) | NIPS / NIPT |
| Placental mosaicism | Plasma cell neoplasm | Duplication | Chromosome 17 | Mosaicism |

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
