

ACC

B**I****N****G****O**

Clinical utility	Diagnostic yield	Complex rearrangement	Acute myeloid leukemia (AML)	"microarray cannot detect balanced events"
Whole genome sequencing (WGS)	"This is a busy slide"	"Probably more complexity we can't see"	Duplication	Chromosome 17
Inversion	Chromosome 3	FREE	"NGS still doesn't see this"	"This is why we still do karyotypes"
Chromosome 10	Chromosomal instability	"This wouldn't have been detected before"	Chromosome 21	"An ugly karyotype"
"Higher resolution method"	"A beautiful karyotype"	Variant of uncertain significance (VUS)	"We were surprised by this finding"	Plasma cell neoplasm

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
