|                              |                    |                            |  |  |
|------------------------------|--------------------|----------------------------|--|--|
| Mosaicism                    | B-cell ALL (B-ALL) | "Higher resolution method" | Chromosome 3                                 | Chorionic villus sampling (CVS)        |
| Tetrasomy 12p                | Chromosome 5       | Chromosome 16              | Pathogenic                                   | "Not detected by conventional methods" |
| Optical genome mapping (OGM) | "p-arm"            | FREE                       | Chromosome 20                                | Homology-mediated repair               |
| Myeloid malignancy           | Chromosome 1       | Deletion                   | Complex rearrangement                        | Whole genome sequencing (WGS)          |
| Circos Plot                  | PML::RARA          | Plasma cell neoplasm       | Deep neural networks / AI / Machine learning | Placental mosaicism                    |

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
