Picture of karyotype	Whole genome sequencing (WGS)	Homology-mediated repair	Y chromosome material	Deletion
Chromosome 17	"We confirmed it with FISH"	Chromosome 14	"NGS still doesn't see this"	"This is a busy slide"
Copy number variation (CNV)	Automated metaphase scanning	FREE	Chromosomal instability	Developmental delay
"Higher resolution platform"	Chromosome 7	Chromosome 19	Derivative chromosome	Chromosome 12
Genotype-phenotype correlation	SRY-positive	"Probably more complexity we can't see"	"A beautiful karyotype"	Acute myeloid leukemia (AML)

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
