Acute promyelocytic leukemia (APL)	Chromosome 3	Cell-free DNA (cfDNA)	"Due to time..."	Genotype-phenotype correlation
Homology-mediated repair	"This wouldn't have been detected before"	"A beautiful karyotype"	"p-arm"	Acute myeloid leukemia (AML)
Diagnostic yield	Chromoanagenesis	FREE	Risk stratification	Chromosome 6
"Not detected by conventional methods"	Duplication	"We were surprised by this finding"	Plasma cell neoplasm	Placental mosaicism
Robertsonian translocation	Chromosomal instability	"An ugly karyotype"	Picture of karyotype	Chromosome 16

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
