B**I****N****G****O**

Chromosome 22	Diagnostic yield	Plasma cell neoplasm	Homology-mediated repair	Copy number variation (CNV)
Whole genome sequencing (WGS)	Automated metaphase scanning	"p-arm"	PML::RARA	Chromosome 10
Risk stratification	MYC amplification	FREE	"Higher resolution platform"	"Probably more complexity we can't see"
Genotype-phenotype correlation	Mosaicism	Optical genome mapping (OGM)	Chromosome 3	Placental mosaicism
"Not detected by conventional methods"	Developmental delay	"microarray cannot detect balanced events"	Pathogenic	Chromosome 1

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
