

ACC

B I N G O

Acute promyelocytic leukemia (APL)	“An ugly karyotype”	Chromosome 21	Triploidy	Variant of uncertain significance (VUS)
Chromosome 20	Inversion	Uniparental disomy (UPD)	“This is why we still do karyotypes”	Acute myeloid leukemia (AML)
“After multiple attempts...”	Chromosome 8	FREE	SRY-positive	Chromosome X
Chromosome 18	“This is a busy slide”	Optical genome mapping (OGM)	“Higher resolution method”	Genotype–phenotype correlation
Automated metaphase scanning	Deletion	Chromosome 15	Chromosome 17	Whole genome sequencing (WGS)

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
