Triploidy	Homology-mediated repair	Chromosome 5	Chromosome 4	Chromosome X
Chromosome 13	Chromoanagenesis	Risk stratification	"Complementary technologies"	"We confirmed it with FISH"
Chromosome 17	Variant of uncertain significance (VUS)	FREE	Inversion	"NGS still doesn't see this"
Pathogenic	"Higher resolution platform"	MYC amplification	Copy number variation (CNV)	"q-arm"
Chromosomal instability	"Not detected by conventional methods"	"Probably more complexity we can't see"	Robertsonian translocation	Deep neural networks / AI / Machine learning

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
