|--|--------------------------|---|------------------------------------|--------------------------------|
| Picture of FISH | Homology-mediated repair | Chromosome X | Acute promyelocytic leukemia (APL) | Chromosome 9 |
| "microarray cannot detect balanced events" | Derivative chromosome | "Probably more complexity we can't see" | Chromosome 12 | Acute myeloid leukemia (AML) |
| Structural variant (SV) | Chromosome 11 | FREE | Clinical utility | Genotype-phenotype correlation |
| Chromosome 18 | Developmental delay | Aneuploidy | "This is a busy slide" | Uniparental disomy (UPD) |
| PML::RARA | Chromosome 6 | Pathogenic | Automated metaphase scanning | B-cell ALL (B-ALL) |

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
