Deep neural networks / AI / Machine learning	Chromosome 10	Genotype–phenotype correlation	Homology-mediated repair	Chromosome 20
Picture of karyotype	Chromosome X	“Unexpected finding”	Chromosome 16	Risk stratification
“microarray cannot detect balanced events”	Whole genome sequencing (WGS)	FREE	Chromosome 5	Automated metaphase scanning
Clinical utility	SRY-positive	“This is a busy slide”	Pathogenic	“After multiple attempts...”
Optical genome mapping (OGM)	Duplication	Acute promyelocytic leukemia (APL)	Translocation	Structural variant (SV)

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
