|                         |                      |  |   |                                     |
|-------------------------|----------------------|--|---|-------------------------------------|
| Chromosome 3            | Chromosome 2         | Inversion                                    | Myeloid malignancy                        | "We were surprised by this finding" |
| Clinical utility        | Chromoanagenesis     | Chromosome 13                                | "Probably more complexity we can't see"   | Chromosome 17                       |
| "q-arm"                 | "An ugly karyotype"  | FREE   | Chorionic villus sampling (CVS)           | Placental mosaicism                 |
| Chromosome 4            | Pathogenic           | Picture of karyotype                         | Chromosome Y                              | Structural variant (SV)             |
| "A beautiful karyotype" | Long-read sequencing | Deep neural networks / AI / Machine learning | "This wouldn't have been detected before" | "We confirmed it with FISH"         |

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
