Whole genome sequencing (WGS)	"This is a busy slide"	Aneuploidy	Clinical utility	Genotype–phenotype correlation
"p-arm"	Mosaicism	"q-arm"	MYC amplification	"Probably more complexity we can't see"
Chromosome 6	"Unexpected finding"	FREE	Plasma cell neoplasm	Automated metaphase scanning
Risk stratification	Translocation	SNP microarray	"Not detected by conventional methods"	"A beautiful karyotype"
Chromosome 1	Y chromosome material	Variant of uncertain significance (VUS)	Pathogenic	"Higher resolution method"

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
