Automated metaphase scanning	Clinical utility	"We confirmed it with FISH"	Cell-free DNA (cfDNA)	Chorionic villus sampling (CVS)
Acute promyelocytic leukemia (APL)	Myeloid malignancy	Acute myeloid leukemia (AML)	Chromosome Y	"Higher resolution method"
Circos Plot	"Due to time..."	FREE	"It's more complex than it looks"	Risk stratification
"Probably more complexity we can't see"	Y chromosome material	Diagnostic yield	Chromosome 3	"A beautiful karyotype"
Translocation	"This wouldn't have been detected before"	Picture of karyotype	MYC amplification	Robertsonian translocation

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
