| | | | | |
|------------------------------|------------------------------------|---|--------------------------------------|--|
| "After multiple attempts..." | Acute promyelocytic leukemia (APL) | Robertsonian translocation | Clinical utility | "microarray cannot detect balanced events" |
| Picture of FISH | Chromosome 8 | Variant of uncertain significance (VUS) | Developmental delay | Copy number variation (CNV) |
| Y chromosome material | "A beautiful karyotype" | FREE | Chromosome 11 | Complex rearrangement |
| Uniparental disomy (UPD) | Chromosome 13 | Optical genome mapping (OGM) | Inversion | Chromosome 15 |
| PML::RARA | "This is a busy slide" | "We were surprised by this finding" | "This is why we still do karyotypes" | "NGS still doesn't see this" |

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
