|   |   |                       |                              |                              |
|---|---|-----------------------|------------------------------|------------------------------|
| Long-read sequencing                    | Chromosome 13                           | Diagnostic yield      | Chromosome 9                 | Chromosome X                 |
| Variant of uncertain significance (VUS) | Copy number variation (CNV)             | Y chromosome material | Acute myeloid leukemia (AML) | "An ugly karyotype"          |
| Chromosome 1                            | Chromosome 8                            | FREE                  | Pathogenic                   | Optical genome mapping (OGM) |
| Chromosome 20                           | "Probably more complexity we can't see" | Chromoanagenesis      | Chromosome 7                 | Chromosome 15                |
| Chromosome 18                           | Translocation                           | Chromosome 14         | "NGS still doesn't see this" | Risk stratification          |

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
