

ACC

B**I****N****G****O**

Pathogenic	Whole genome sequencing (WGS)	Acute myeloid leukemia (AML)	Clinical utility	Chromosome 13
"A beautiful karyotype"	Chromosome 15	Long-read sequencing	"Complementary technologies"	"Higher resolution platform"
Chromosome 12	MYC amplification	FREE	SNP microarray	"p-arm"
Chromosome 17	Homology-mediated repair	"microarray cannot detect balanced events"	Chromosome 3	Robertsonian translocation
"Not detected by conventional methods"	Chromosome 6	"Higher resolution method"	"After multiple attempts..."	Chromosome X

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
