Long-read sequencing	MYC amplification	"Higher resolution method"	"NGS still doesn't see this"	Chromoanagenesis
Pathogenic	Chromosome 10	Chromosome 11	"We were surprised by this finding"	Circos Plot
Cell-free DNA (cfDNA)	Diagnostic yield	FREE	Derivative chromosome	Translocation
Tetrasomy 12p	Inversion	NIPS / NIPT	Chromosome 1	Chromosome X
Homology-mediated repair	"It's more complex than it looks"	Deep neural networks / AI / Machine learning	"Unexpected finding"	Complex rearrangement

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
