|                              |   |                              |                      |                                   |
|------------------------------|---|------------------------------|----------------------|-----------------------------------|
| Pathogenic                   | "Higher resolution platform"            | Robertsonian translocation   | Chromoanagenesis     | Circos Plot                       |
| "A beautiful karyotype"      | Chromosome 13                           | Y chromosome material        | Chromosome 8         | Acute myeloid leukemia (AML)      |
| Chromosome 10                | B-cell ALL (B-ALL)                      | FREE                         | Myeloid malignancy   | Derivative chromosome             |
| Chromosome Y                 | "Probably more complexity we can't see" | "NGS still doesn't see this" | Long-read sequencing | "It's more complex than it looks" |
| Automated metaphase scanning | Chromosome 20                           | PML::RARA                    | Chromosome 19        | MYC amplification                 |

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
