|                            |  |                    |   |                              |
|----------------------------|--|--------------------|---|------------------------------|
| Picture of FISH            | Structural variant (SV)                    | Chromosome 15      | Tetrasomy 12p                           | Duplication                  |
| Deletion                   | Acute promyelocytic leukemia (APL)         | Myeloid malignancy | "Not detected by conventional methods"  | "Higher resolution platform" |
| Chromosome Y               | Automated metaphase scanning               | FREE               | "Probably more complexity we can't see" | Developmental delay          |
| SRY-positive               | "microarray cannot detect balanced events" | Chromosome 14      | Aneuploidy                              | Pathogenic                   |
| "Higher resolution method" | "This is a busy slide"                     | Chromosome 16      | Chromosomal instability                 | Chromosome 7                 |

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
