B**I****N****G****O**

| | | | | |
|-------------------------------------------|-------------------------------|--------------------|------------------------------|----------------------------------------------|
| Inversion | Chromosome Y | B-cell ALL (B-ALL) | Chromosome 6 | Genotype–phenotype correlation |
| “It’s more complex than it looks” | “q-arm” | Chromosome 22 | Diagnostic yield | Chorionic villus sampling (CVS) |
| “This wouldn’t have been detected before” | Whole genome sequencing (WGS) | FREE | Chromosome 12 | Deletion |
| MYC amplification | Structural variant (SV) | Chromosome 18 | Acute myeloid leukemia (AML) | SRY-positive |
| Chromosomal instability | Optical genome mapping (OGM) | Chromosome 8 | Tetrasomy 12p | Deep neural networks / AI / Machine learning |

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
