| | | | | |
|--|---------------------------------|-----------------------|------------------------------|--|
| Chromosome 18 | Automated metaphase scanning | Pathogenic | Optical genome mapping (OGM) | Deep neural networks / AI / Machine learning |
| Cell-free DNA (cfDNA) | Risk stratification | Chromosome 5 | Chromosome 7 | "This is a busy slide" |
| "microarray cannot detect balanced events" | "NGS still doesn't see this" | FREE | Chromosome 22 | Chromosome Y |
| "q-arm" | Chorionic villus sampling (CVS) | Chromothripsis | Duplication | Copy number variation (CNV) |
| Chromosome 19 | SNP microarray | Complex rearrangement | Homology-mediated repair | "p-arm" |

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
