|                      |  |                               |                                    |  |
|----------------------|--|-------------------------------|------------------------------------|--|
| Duplication          | Automated metaphase scanning               | "An ugly karyotype"           | Chromosome 18                      | Chromosome 15                                |
| Long-read sequencing | "We confirmed it with FISH"                | Chromoanagenesis              | Chromosome 7                       | "Higher resolution method"                   |
| Chromosome 1         | "Unexpected finding"                       | FREE                          | Plasma cell neoplasm               | Chromosome 14                                |
| Chromosome 19        | "microarray cannot detect balanced events" | Whole genome sequencing (WGS) | Chromosome 16                      | Picture of karyotype                         |
| Deletion             | Chromosomal instability                    | Complex rearrangement         | Acute promyelocytic leukemia (APL) | Deep neural networks / AI / Machine learning |

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
