|   |                                   |                         |                              |                                 |
|---|-----------------------------------|-------------------------|------------------------------|---------------------------------|
| Chromosome 18                             | Chromosome 17                     | Chromosome 10           | Chromosome X                 | Chorionic villus sampling (CVS) |
| Inversion                                 | Chromosome 3                      | Triploidy               | Chromosome 22                | MYC amplification               |
| "This wouldn't have been detected before" | "It's more complex than it looks" | FREE                    | Chromosome 2                 | "We confirmed it with FISH"     |
| Genotype-phenotype correlation            | Chromosome 5                      | "A beautiful karyotype" | "After multiple attempts..." | Diagnostic yield                |
| Mosaicism                                 | Chromosomal instability           | Picture of FISH         | Duplication                  | B-cell ALL (B-ALL)              |

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
