

# ACC

**B I N G O**

Risk stratification	Duplication	Robertsonian translocation	Chorionic villus sampling (CVS)	Developmental delay
"Higher resolution method"	Derivative chromosome	Chromosome 20	Chromosome 6	Deletion
Deep neural networks / AI / Machine learning	Chromosome 5	FREE	"NGS still doesn't see this"	Automated metaphase scanning
Aneuploidy	"We were surprised by this finding"	Chromosomal instability	Chromosome Y	Optical genome mapping (OGM)
"We confirmed it with FISH"	"Higher resolution platform"	Chromothripsis	Genotype-phenotype correlation	"microarray cannot detect balanced events"

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
