|                            |                          |                            |  |                                 |
|----------------------------|--------------------------|----------------------------|--|---------------------------------|
| Robertsonian translocation | Chromosome 4             | Uniparental disomy (UPD)   | Chromosome 22                                | Chorionic villus sampling (CVS) |
| Diagnostic yield           | Complex rearrangement    | "Higher resolution method" | Deep neural networks / AI / Machine learning | Chromosome 5                    |
| Chromosome 11              | Homology-mediated repair | FREE                       | Deletion                                     | Automated metaphase scanning    |
| Developmental delay        | Mosaicism                | Picture of FISH            | Circos Plot                                  | "An ugly karyotype"             |
| Long-read sequencing       | "Due to time..."         | Chromosome 3               | MYC amplification                            | Placental mosaicism             |

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
