

ACC

B I N G O

Risk stratification	Aneuploidy	"We were surprised by this finding"	"Unexpected finding"	Homology-mediated repair
Chromosome 16	Y chromosome material	Cell-free DNA (cfDNA)	Deep neural networks / AI / Machine learning	Optical genome mapping (OGM)
"microarray cannot detect balanced events"	Developmental delay	FREE	B-cell ALL (B-ALL)	Chromothripsis
Whole genome sequencing (WGS)	"Probably more complexity we can't see"	"NGS still doesn't see this"	Chromosome 22	Tetrasomy 12p
SNP microarray	Robertsonian translocation	"After multiple attempts..."	Chromosome Y	Long-read sequencing

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
