Duplication	Chromosome 2	"microarray cannot detect balanced events"	Homology-mediated repair	PML::RARA
"A beautiful karyotype"	Diagnostic yield	Translocation	Acute promyelocytic leukemia (APL)	Chromosome X
Robertsonian translocation	"Complementary technologies"	FREE	"p-arm"	Chromosome 15
Chromoanagenesis	"This is why we still do karyotypes"	Chromosome 8	Automated metaphase scanning	Chromosome 11
"q-arm"	"Higher resolution method"	Chromosomal instability	"After multiple attempts..."	Inversion

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
