"Not detected by conventional methods"	Whole genome sequencing (WGS)	"This is why we still do karyotypes"	"Probably more complexity we can't see"	Acute promyelocytic leukemia (APL)
Risk stratification	Translocation	Inversion	"p-arm"	Pathogenic
Automated metaphase scanning	MYC amplification	FREE	SRY-positive	SNP microarray
Chromosome 13	Acute myeloid leukemia (AML)	Chromosome 10	Chromoanagenesis	"We were surprised by this finding"
Long-read sequencing	"After multiple attempts..."	Chromosome 5	Developmental delay	Complex rearrangement

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
