

# ACC

**B****I****N****G****O**

Acute myeloid leukemia (AML)	Chromosome 21	Risk stratification	"This is a busy slide"	Homology-mediated repair
MYC amplification	"Unexpected finding"	Y chromosome material	Cell-free DNA (cfDNA)	"We confirmed it with FISH"
Chromosome 16	"Higher resolution platform"	FREE	Chromosomal instability	"Probably more complexity we can't see"
Chromosome 6	Chorionic villus sampling (CVS)	Chromosome 9	Myeloid malignancy	Chromosome Y
Variant of uncertain significance (VUS)	Optical genome mapping (OGM)	Chromosome 1	Acute promyelocytic leukemia (APL)	Diagnostic yield

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
