| | | | | |
|--------------------------|---|-------------------------------|---|--|
| Derivative chromosome | Automated metaphase scanning | Whole genome sequencing (WGS) | Chromosome 4 | Chromosome 12 |
| Uniparental disomy (UPD) | "Higher resolution method" | Acute myeloid leukemia (AML) | "p-arm" | Chromosome 13 |
| Y chromosome material | Chromosome X | FREE | "We confirmed it with FISH" | "A beautiful karyotype" |
| Chromosome 15 | "This wouldn't have been detected before" | "After multiple attempts..." | Chromosome 9 | Chromosome 1 |
| Circos Plot | Variant of uncertain significance (VUS) | MYC amplification | "Probably more complexity we can't see" | Deep neural networks / AI / Machine learning |

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
