Whole genome sequencing (WGS)	Chromosome 5	"microarray cannot detect balanced events"	Chromosome 22	Chromosome 2
"Probably more complexity we can't see"	Chromosome Y	Myeloid malignancy	Chromosome 15	"A beautiful karyotype"
Chromosome 12	Chromosome 20	FREE	Diagnostic yield	"Higher resolution platform"
"p-arm"	"Due to time..."	Pathogenic	Genotype-phenotype correlation	"Unexpected finding"
Complex rearrangement	Chromosome 14	"We confirmed it with FISH"	Acute promyelocytic leukemia (APL)	"This is why we still do karyotypes"

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
