Placental mosaicism	Acute promyelocytic leukemia (APL)	Chromosome 10	Y chromosome material	Tetrasomy 12p
Genotype–phenotype correlation	“Complementary technologies”	Developmental delay	Long-read sequencing	Chromosome 2
Optical genome mapping (OGM)	“Due to time...”	FREE	Homology-mediated repair	Complex rearrangement
Variant of uncertain significance (VUS)	Chromosome 4	SRY-positive	Chromosome 14	Copy number variation (CNV)
Chromosome 17	Triploidy	“This is why we still do karyotypes”	Chromosomal instability	“After multiple attempts...”

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
