Variant of uncertain significance (VUS)	Chromosome 2	"A beautiful karyotype"	Myeloid malignancy	Chromosome 21
Uniparental disomy (UPD)	"This is why we still do karyotypes"	Chromosome 3	Chromosome 17	Whole genome sequencing (WGS)
Translocation	Chromoanagenesis	FREE	"We were surprised by this finding"	Genotype-phenotype correlation
NIPS / NIPT	Clinical utility	"microarray cannot detect balanced events"	Derivative chromosome	Chromosome 1
Chromosome 10	Chromosome 7	Structural variant (SV)	Pathogenic	"Not detected by conventional methods"

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
