

# ACC

**B I N G O**

Variant of uncertain significance (VUS)	Chromosome X	Chromosome 4	Picture of FISH	Developmental delay
Aneuploidy	B-cell ALL (B-ALL)	Long-read sequencing	Chromosome Y	Automated metaphase scanning
Chromosomal instability	"This is why we still do karyotypes"	FREE	Chromosome 12	"Probably more complexity we can't see"
"microarray cannot detect balanced events"	Chromoanagenesis	Picture of karyotype	MYC amplification	"Complementary technologies"
"Higher resolution method"	Complex rearrangement	Deep neural networks / AI / Machine learning	"This wouldn't have been detected before"	Triploidy

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
