| | | | | |
|------------------------------|-----------------------------------------|------------------------------------|----------------------------------------------|----------------------------------------|
| Chromosomal instability | Translocation | "An ugly karyotype" | Clinical utility | Triploidy |
| Chromosome 20 | Chromosome 4 | Long-read sequencing | Chromosome 8 | MYC amplification |
| Circos Plot | Chromosome 19 | FREE | Deep neural networks / AI / Machine learning | Diagnostic yield |
| "A beautiful karyotype" | SRY-positive | Acute promyelocytic leukemia (APL) | Picture of FISH | Chromothripsis |
| "Higher resolution platform" | "Probably more complexity we can't see" | Homology-mediated repair | Chromosome 11 | "Not detected by conventional methods" |

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
