B**I****N****G****O**

Homology-mediated repair	Plasma cell neoplasm	"Higher resolution platform"	Robertsonian translocation	Chromosome 5
"q-arm"	Picture of FISH	"p-arm"	Acute myeloid leukemia (AML)	Acute promyelocytic leukemia (APL)
Deep neural networks / AI / Machine learning	Placental mosaicism	FREE	"microarray cannot detect balanced events"	Chromosome 21
Chromosome 12	Variant of uncertain significance (VUS)	Automated metaphase scanning	Chromosome Y	Long-read sequencing
Picture of karyotype	B-cell ALL (B-ALL)	"We were surprised by this finding"	Pathogenic	Derivative chromosome

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
