|                       |                              |                                      |                              |   |
|-----------------------|------------------------------|--------------------------------------|------------------------------|---|
| Tetrasomy 12p         | Automated metaphase scanning | "This is why we still do karyotypes" | Homology-mediated repair     | Clinical utility                        |
| Triploidy             | "Higher resolution method"   | Chromosome 15                        | "NGS still doesn't see this" | "Probably more complexity we can't see" |
| Mosaicism             | Chromosome 3                 | FREE                                 | "A beautiful karyotype"      | Complex rearrangement                   |
| Chromosome 4          | Robertsonian translocation   | "We confirmed it with FISH"          | Chromosome 2                 | Chromosome 21                           |
| Cell-free DNA (cfDNA) | Chromosome 18                | Duplication                          | "q-arm"                      | SRY-positive                            |

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
