Inversion	Chromosome 16	B-cell ALL (B-ALL)	"Probably more complexity we can't see"	Automated metaphase scanning
Long-read sequencing	Risk stratification	Acute myeloid leukemia (AML)	Placental mosaicism	Diagnostic yield
Chromosome 18	Chromosome 13	FREE	Chromosome 14	Picture of karyotype
Cell-free DNA (cfDNA)	Chromosome 4	Derivative chromosome	Acute promyelocytic leukemia (APL)	Translocation
"This wouldn't have been detected before"	Robertsonian translocation	"This is a busy slide"	Optical genome mapping (OGM)	"This is why we still do karyotypes"

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
