|                              |                      |                               |  |   |
|------------------------------|----------------------|-------------------------------|--|---|
| Deletion                     | Duplication          | Risk stratification           | Chromosome 17                              | Variant of uncertain significance (VUS) |
| Developmental delay          | Translocation        | "Higher resolution method"    | Chromosome 18                              | Acute myeloid leukemia (AML)            |
| Circos Plot                  | Pathogenic           | FREE                          | "An ugly karyotype"                        | "We confirmed it with FISH"             |
| "NGS still doesn't see this" | Chromosome 1         | Whole genome sequencing (WGS) | "microarray cannot detect balanced events" | Aneuploidy                              |
| Chromosome 10                | Picture of karyotype | Chromosome 13                 | "After multiple attempts..."               | "q-arm"                                 |

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
