|  |                      |                       |                            |                                    |
|--|----------------------|-----------------------|----------------------------|------------------------------------|
| Complex rearrangement                        | Long-read sequencing | Chromosome 19         | Chromosome 2               | Chromosome 3                       |
| Deep neural networks / AI / Machine learning | Chromosome 12        | Y chromosome material | Chromosome 11              | "Higher resolution platform"       |
| Copy number variation (CNV)                  | Deletion             | FREE                  | Robertsonian translocation | Placental mosaicism                |
| "It's more complex than it looks"            | Plasma cell neoplasm | "Unexpected finding"  | Risk stratification        | "NGS still doesn't see this"       |
| MYC amplification                            | Tetrasomy 12p        | Myeloid malignancy    | Inversion                  | Acute promyelocytic leukemia (APL) |

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
