|  |                                      |               |  |                             |
|--|--------------------------------------|---------------|--|-----------------------------|
| "Complementary technologies"               | Chromosome 4                         | Chromosome 6  | Copy number variation (CNV)                  | "We confirmed it with FISH" |
| "Higher resolution method"                 | Duplication                          | "q-arm"       | Structural variant (SV)                      | Clinical utility            |
| "microarray cannot detect balanced events" | "This is why we still do karyotypes" | FREE          | Inversion                                    | "An ugly karyotype"         |
| Risk stratification                        | Circos Plot                          | Chromosome 13 | Deep neural networks / AI / Machine learning | Developmental delay         |
| Diagnostic yield                           | "After multiple attempts..."         | Pathogenic    | Chromosome 14                                | Picture of FISH             |

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
