|---|--|-----------------------|--|--------------------------------|
| "After multiple attempts..." | Deep neural networks / AI / Machine learning | Developmental delay | "q-arm" | Robertsonian translocation |
| Chromosome 4 | Uniparental disomy (UPD) | SNP microarray | Chromosome X | NIPS / NIPT |
| Chromosome 20 | Y chromosome material | FREE | Pathogenic | Genotype-phenotype correlation |
| Chromoanagenesis | Placental mosaicism | Circos Plot | Chromosome 22 | Chromosome 14 |
| Variant of uncertain significance (VUS) | Chromosome 8 | Cell-free DNA (cfDNA) | "Not detected by conventional methods" | PML::RARA |

Rules: Mark off squares as terms or quotes on your card are mentioned or appear on a slide. Five in a row vertically, horizontally, or diagonally to win. Each game starts at the beginning of each platform session (excluding keynote and vendor talks) and ends when a player has a bingo or at the conclusion of the last talk of that session, whichever comes first. You must audibly say "bingo" to win.
